Projects / Open-Source

Document Verification System using Blockchain DocShield BLAKE3, Smart Contracts, IPFS

- This system presents an automated document verification system using BLAKE3 hashing, smart contracts, and IPFS for secure, tamper-proof validation.
- A real-time, secure, decentralized solution that replaces manual verification in the government, banking, and education sectors.

SkillSync AI Python, Node.js, NLTK (Ongoing)

- SkillSync AI chat-bot uses Python for AI/NLP, Node.js for back-end, React for front-end, and AI libraries like TensorFlow, PyTorch, NLTK, and spaCy to deliver personalized learning paths for students.
- Built full-stack solutions with MERN stack, integrated conversational AI, and deployed services on cloud platforms for scalable, interactive educational support.

Certifications

- Certified Generative AI Professional - Oracle
- Certified Data Science Professional - Oracle
- Web Development - Coursera
- Critically Exploring Psychology - OpenUniversity

Additional Information

- Spoken Languages: English, Hindi(Native), Telugu
- Round 3 of the Smart India Hackathon (SIH 2024)
- 300+ Questions on LeetCode - shubhankardikshant
- Participated in Adobe India Hackathon 2025, Unstop Flipkart Grid 3.0
- Edu4U Club, VIT Bhopal (Core member, Design Co-Lead), managed the Club events, designed the club merchandise, posters, and pamphlets. As Co-Leader, supervised the design team.
