Experience

Unified Mentor - Full-Stack Web Developer

Remote - July 2025 - October 2025

- Currently undertaking a 3-month Full-Stack Web Development Internship at Unified Mentor, focusing on end-to-end web application development.
- I'm gaining hands-on experience building responsive, scalable web solutions under industry mentorship, utilizing modern tech stacks such as React.js, HTML, and CSS.

Skills

Programming Languages: Java, HTML, CSS, JavaScript, Python

Tools / Platforms: AWS, OpenCV, TensorFlow

Databases: MySQL

Languages: English, Hindi, Telugu

Projects / Open-Source

Document Verification System using Blockchain DocShield

Blockchain, BLAKE3, Smart

Contracts, IPFS

- This system presents an automated document verification system using BLAKE3 hashing, smart contracts, and IPFS for secure, tamper-proof validation.
- It offers real-time management, decentralized storage, and enhanced security, aiming to replace manual verification processes in sectors like government, banking, and education with a more efficient and reliable solution.

Virtual Mouse

React.js, HTML, CSS

- The user can access all the mouse controls using his/her fingers.
- Various gestures are mapped to various mouse controls for convenience.
- This model can help during pandemic situations like the Covid-19 or for people with disabilities, presentations etc.

Certifications

• Web Development - Coursera

Honors & Awards

- Round 3 of the Smart India Hackathon (SIH 2024)
- Cricket Tournament Winner (Inter-College Tournament hosted by TMU)
- Chess Tournament Finalist
- Edu4U Club VIT Bhopal (Design Co-Lead)
